

# WARM/ACTIVITY POOL CLOSURE

## DEAR MEMBERS:

We have some exciting news and important updates regarding our aquatics area here at The Wave. We will be replastering both the warm pool and activity pool. This work has been sorely needed, and we are excited to announce that the work is finally going to get done. Adding to the excitement, we are happy to announce that during this closure, we will begin the transition to salt chlorination for the warm pool.

**These improvements will require both the warm and activity pools to be closed from May 20 to June 15.**

The lap pool will remain open throughout the renovation period. We will be sending an updated schedule shortly that includes lap swimming times as well as the water aerobics classes that can be accommodated in the lap pool. While we know many members love the warmer water in the warm pool, we are doing our best to maintain as many water aerobics classes as possible during this time. We will also be working to offer lifeguarded open swim sessions in the lap pool to help accommodate our younger members while the activity pool is unavailable.

During the replastering, you can expect some disruption beyond the closures as the initial work will be loud and dusty, requiring closure of some deck spaces. Access to the lap pool will not be available from the family change rooms during the first few days of the replaster project. During this time, users will need to use a route through the main lobby. Signage will be in place to help guide everyone.

We will do our best to minimize inconvenience and keep you updated as the project progresses. Thank you for your understanding and continued support as we make these important improvements to enhance your experience at The Wave!
